PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech 2026, CGPA 9.2) with hands-on experience in Java, Spring Boot, React, and MySQL. Built and delivered 3+ web applications designed RESTful APIs, and implemented JWT-secured endpoints. completed a 10-month Full Stack Developer internship. Seeking a Software Developer role to deliver scalable, high performance software solutions.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot, Spring Security, Hibernate/JPA, React.js, JDBC

Tools & Platforms: Git/GitHub, Maven, Postman, Antigravity, Lovable, Claude, MySQL Workbench, Docker (basics)

Concepts: REST APIs, JWT Authentication, OOP, MVC Architecture, Java Collections, Exception Handling, SDLC

Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks

EXPERIENCE

Full Stack Developer Intern — Kodnest

Jul 2025 – May 2026

Virtual / India

- Built 3+ full-stack applications (Java, Spring Boot, React, MySQL) in Agile sprints, delivering features on schedule.
- Designed and implemented RESTful APIs; optimized SQL queries with indexing, reducing data retrieval time by ~25%.
- Configured JWT-based authentication with Spring Security, securing backend services, and reducing API response time by 20%.
- Developed responsive UI components with React and Bootstrap; maintained version control across a 5-member team using git.

PROJECTS

Smart PG Management & Room Booking System

[\[Github\]](#)

- Built a full-stack PG management platform supporting 50+ room listings with role-based access control for admin and tenants.
- Created a normalized MySQL schema (3NF, 8+ tables), reducing query latency by ~30% through indexing and optimized joins.
- Architected 10+ RESTful API endpoints for bookings and tenant management; integrated HTML/CSS/JS frontend with Spring Boot backend for real-time data updates.
- Implemented CRUD operations for room, tenant, and booking modules with referential integrity constraints across all database relationships.

Menvy — Full-Stack E-Commerce Platform

[\[Github\]](#)

- Developed a full-stack e-commerce web application using React.js, TypeScript, Java Spring Boot, and Supabase.
- Implemented product browsing, search, cart and user authentication features.
- Built REST APIs with Spring Boot and integrated them with the frontend.
- Managed database operations using Supabase.
- Deployed the frontend and backend to cloud hosting platforms for live production access.

EDUCATION

Adi Sankara College of Engineering and Technology

Bachelor of Technology in Computer Science · CGPA: 7.8

Nov 2022 – May 2026

Nellore, Andhra Pradesh

Sri Vasista Junior College

Class XII · Grade: 75%

May 2022

Andhra Pradesh, India

ACHIEVEMENTS & CERTIFICATIONS

- IBM Skills Build Certificate** – Earned industry-recognized certification from IBM Skills Build
- Kodnest Internship Certificate** – Successfully completed a Java Full Stack Development internship at Kodnest.
